

The Community Investment Program (CIP) requires intermittent reporting within our funding program. These reports operate as pulse checks and allow for better case management, better fund use and early identification of any issue that may arise

1. Please outline the Capacity Fund project outcome from your Capacity Fund application.

2. Based on the project outcome, explain any challenges, new insights or learnings that you may have learned at this point.

3. In reference to the workplan that you submitted as part of your Capacity Fund application; please indicate what progress you have made towards achieving your goal(s).
