

Notice of Public Information Centre # 2 Region of Peel Water and Wastewater Master Plan

The Study

The Region of Peel has initiated a Water and Wastewater Master Plan update for its lake-based systems (where Lake Ontario is the source of drinking water and the discharge point for treated wastewater) to update the current 2013 Master Plan.

The objectives of the study are to:

- Identify a preferred lake-based water and wastewater servicing strategy to support existing servicing needs and projected growth
- Coordinate with the Regional Official Plan Amendment (ROPA), which guides Provincially mandated growth within the Region to 2041
- Consider emphasis on intensification, post-2041 growth and alignment with the Regional Strategic Plan
- Provide the business case for the need, timing and cost of servicing and infrastructure

The study will also review the Region's capital plan to meet the current servicing agreements with York Region and the City of Toronto. The study area for the Region's lake-based Water and Wastewater Master Plan includes the City of Mississauga, the City of Brampton and parts of the Town of Caledon.

The Process

The study follows the master planning process of the Municipal Engineer's Association. The Master Plan will follow approach #1, which will fulfill the requirements for Schedule A and A+ projects and become the basis for future investigations for specific Schedule B and C projects.

Public Consultation

Consultation with interested stakeholders is considered a key component of this Master Plan Study. The study work plan provides for two rounds of Public Information Centres (PICs). The first round of PICs was part of the Growth Management Study, held on Feb. 12, 13 and 15, 2018, where the Master Planning process, problem and opportunity statement and existing water and wastewater opportunities and constraints were presented.

Since the first round of the PICs, the Region has completed a review of potential impacts on the natural, social and economic environments associated with each of the water and wastewater servicing strategies. The second PIC will focus on the water and wastewater servicing strategies and preferred solutions.

Public Information Centre Locations:

The Region of Peel will be hosting three separate sessions for the second round of PICs, scheduled as follows:

Municipality	Date	Time	Location
City of Mississauga	Tuesday Nov 26, 2019	4:30 -7:30 p.m.	CN meeting room Living Arts Centre 4141 Living Arts Drive, Mississauga
Town of Caledon	Wednesday Nov. 27, 2019	4:30 -7:30 p.m.	Caledon Community Complex – Banquet Hall B 6215 Old Church Road, Caledon East
City of Brampton	Thursday Nov. 28, 2019	4:30 -7:30 p.m.	Region of Peel 10 Peel Centre Drive Brampton, ON L6T 4B9 Caledon & Brampton Meeting Room

The Region wishes to ensure that anyone with an interest in this study has the opportunity to be involved and provide input. Representatives from the Region and its consultants will be present at the PICs to answer questions and discuss the next steps in the study. Please visit the project website for more information at: <https://www.peelregion.ca/pw/water/environ-assess/>
