

Looking for Something?

More residents than ever are using the Region of Peel's website to look up information or access services such as our waste calendar or to find out about our Community Recycling Centres.

How we Serve the Community

More residents are using multiple ways to reach Regional services, however in 2017, we more than doubled the number of people who used the website to get information compared to 2015.

Note: The sample composition year over year is not identical.
